"The pandemic has taken a heavy toll on the economic and social fabric of our society. But this can serve as an opportunity to build a better Europe, impervious to future crises. The Commission is taking decisive action to shape Europe's postcoronavirus future with the European Green Deal, our green growth strategy and Europe's digital decade, our pack of initiatives to make the EU fit for the digital age. These policy responses all have something in common: they require massive investments. With NextGenerationEU and the long-term EU budget, we have the financial power to finance Europe's green and digital transitions. Citizens, businesses, regions, cities: these EUR 1.8 trillion – or EUR 2.0 trillion in current prices - are for you. They will help you recover, grow and express your talents, for the benefit of the whole EU."

Ursula von der Leyen

European Commission President

"Last year the the European Commission proposed an unprecedented response to the pandemic, which was quickly endorsed by the EU Member States. Today, the 2021–2027 long-term budget and NextGenerationEU form the largest package ever financed through the EU budget, of EUR 1.8 trillion – or EUR 2.0 trillion in current prices. With their combined firepower, the EU will support citizens, companies and regions most affected by the coronavirus crisis. The package will also help rebuild a post-COVID-19 Europe, which will be greener, more digital, more resilient and better fit for the current and forthcoming challenges.

The next step is the successful implementation of the package and I invite all beneficiaries of the EU budget – farmers, students, researchers, municipalities, businesses and many more – to make the most of it. This funding is for you, so explore the possibilities and make the changes we all aspire to!"

Johannes Hahn

European Commissioner for Budget and Administration

POWERING THE EU'S RECOVERY

THE EU'S 2021-2027 LONG-TERM BUDGET & NEXTGENERATIONEU

In 2020, the EU provided an unprecedented response to the coronavirus crisis that hit Europe and the world. At its heart is a stimulus package worth **EUR 2.018 trillion** in current prices (EUR 1.8 trillion in 2018 prices). It consists of the EU's long-term budget for 2021 to 2027 of **EUR 1.211 trillion** (EUR 1.074 trillion in 2018 prices), topped up by **EUR 806.9 billion** (EUR 750 billion in 2018 prices) through NextGenerationEU, a temporary instrument to power the recovery.

The separate values – <u>current and 2018 prices</u> – represent the same amount in nominal and in real terms. The difference stems from the annual adjustment for inflation (¹). The 2018 prices are free of inflation and useful for comparisons. The amounts in current prices show how much beneficiaries will actually receive from the budget. In this brochure, current prices are used unless specified otherwise.

With a budget of **EUR 806.9 billion**, <u>NextGenerationEU</u> will help repair the immediate economic and social damage caused by the coronavirus pandemic and make the EU fit for the future. The instrument will help build a post-COVID-19 EU that is greener, more digital, more resilient and better fit for the current and forthcoming challenges.

Roll-out of rapid broadband services

CONNECT

The centrepiece of NextGenerationEU is the **Recovery and Resilience Facility** – an instrument for providing grants and loans to support reforms and investments in the EU Member States at a total value of **EUR 723.8 billion**. Part of the funds – **EUR 338.0 billion** – will be provided in form of grants.

The remainder .- **EUR 385.8 billion** - will be used to provide loans from the EU to individual Member States on favourable conditions, which will be repaid by those Member States.

The funds under the Recovery and Resilience Facility will be distributed according to national recovery and resilience plans prepared by each Member State, in cooperation with the European Commission, and in line with an agreed allocation key. In addition, NextGenerationEU will reinforce several existing EU programmes and policies, as follows:

- the Cohesion policy under the recovery assistance for cohesion and the territories of Europe (REACT-EU), to help address the economic consequences of COVID-19 in the first years of the recovery;
- the **Just Transition Fund**, to guarantee that the transition to climate neutrality works for all;
- the European Agricultural Fund for Rural Development, to further support farmers;
- InvestEU, to support the investment efforts of our businesses;

NEXTGENERATIONEU CONTRIBUTION TO OTHER PROGRAMMES EUR 83.1 billion

REACT-EU 50.6 JUST TRANSITION FUND 10.9 RURAL DEVELOPMENT 8.1 INVESTEU 6.1 HORIZON EUROPE 5.4 RESCEU 2.0

- rescEU, safeguards that the EU Civil Protection Mechanism has the capacity to respond to largescale emergencies;
- Horizon Europe, to make sure the EU has the capacity to fund more excellence in research.

To finance NextGenerationEU, the EU will borrow on the markets (see Section 6). Repayment will take place over a long-term period, until 2058. This will avoid placing immediate pressure on Member States' national finances and enable them to focus their efforts on the recovery.

All amounts are in EUR billion, in current prices, as of November 2020. Source: European Commission.

HOW IS THE 2021-2027 BUDGET DIFFERENT FROM OTHER BUDGETS?

The <u>2021–2027 long-term budget is different</u> from any previous budget because it has new priorities.

What does this mean? In the 1980s, the bulk of the EU budget went to agriculture and, as of the 1990s, to cohesion. While their share gradually declined over time, for a long time these areas still received over 70 % of the total budget. Eventually, spending was increased in areas such as research, trans-European networks and external action, and on programmes directly managed at EU level.

REINFORCING THE EU ADDED VALUE

When the EU pools its resources and finances in policy areas such as research and border protection at EU level, it achieves better results than the EU Member States could manage acting on their own. EU action in these policy areas brings EU added value. It therefore makes sense to finance more of such action at EU level. This was the Commission's objective when it put forward its proposal for a 2021–2027 long-term budget back in May 2018. The proposal provided for a higher share of the budget to go to new and reinforced priorities compared to cohesion and agriculture.

As a result of this re-orientation towards an increased EU added value, 31.9 % of the 2021–2027 long-term budget is for research, education, border protection and much more. This share increases to more than 50% when NextGenerationEU funding is taken into account. The share allocated to economic, social and territorial cohesion is smaller, at 30.5 % and 30.9 % of the budget will go to the common agricultural policy. Both programmes have themselves been significantly modernised, with the objective of supporting the green and digital transitions.

This makes the current long-term budget a <u>truly</u> modern budget.

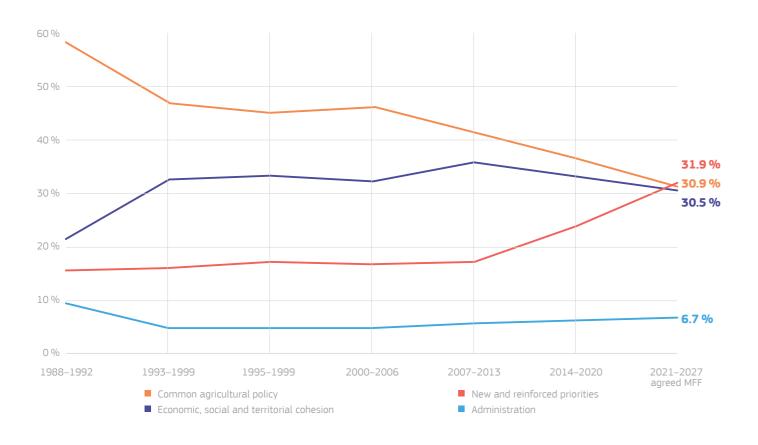

Chart: Share of the main policy areas in the multiannual financial frameworks *Source:* European Commission.

More than **50 %** of the **long-term budget** and **NextGenerationEU** will go to **new priorities**. It will be spent on:

- research and innovation, via Horizon Europe;
- fair climate and digital transitions, via the Just Transition Fund and the digital Europe programme;
- preparedness, recovery and resilience, via the Recovery and Resilience Facility, the EU's Civil Protection Mechanism (rescEU) and the health programme, EU4Health.

30 % of the long-term budget and NextGenerationEU will be spent on **fighting climate change** – **the highest share ever, from the largest EU budget ever**. These funds are part of a major investment plan that the EU will put in place to green the economy.

It will combine EU and national public funds, and public and private investments to support the EU on its path to climate neutrality by 2050.

20 % of the Recovery and Resilience Facility funds will be invested in the EU's digital transformation. These funds will help the EU invest more in supercomputing, artificial intelligence, cybersecurity, advanced digital skills and the wider use of digital technologies across the economy and society.

In 2026 and 2027, 10 % of the annual spending under the long-term budget will contribute to halting and reversing the decline of biodiversity. Biodiversity is essential for life. Restoring forests, soils and wetlands and creating green spaces in cities will help the EU achieve its climate change mitigation and greening objectives.

WHO BENEFITS FROM THE EU BUDGET?

EVERYBODY BENEFITS FROM THE EU BUDGET AND NEXTGENERATIONEU

The EU budget is not a zero-sum game. Everybody is a winner, enjoying borderless travel, affordable phone calls from abroad and a coordinated EU response to the coronavirus pandemic and its consequences. All EU Member States benefit from being part of the single market, addressing the challenges of migration and fighting terrorism and climate change together, as well as from better roads, modernised public services and cutting-edge medical treatment.

In addition, hundreds of thousands of people in the EU directly benefit from EU funding. Many receive grants or advantageous EU-guaranteed loans

to carry out investment, research or educational projects. Farmers receive subsidies to continue producing high-guality, affordable food for all Europeans. Artists receive support to keep making award-winning cinema and theatre productions.

CROSS-CUTTING PRIORITY AREAS

To organise the funding efficiently, the EU budget is divided into headings – or spending categories - and programmes, which support groups of beneficiaries across EU policy areas. In principle, each programme supports a different policy area and group of beneficiaries. However, there are some cross-cutting priority areas that may receive funding from several programmes.

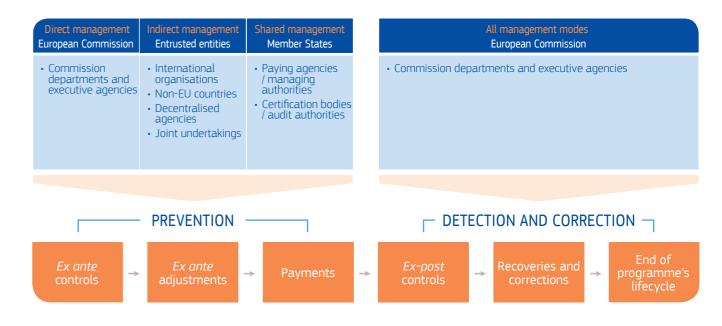

HOW DOES THE EUROPEAN COMMISSION PROTECT THE BUDGET?

For the European Commission, it is a priority to protect taxpayer's money and make sure that every euro from the budget is spent in line with the rules and generates added value. The Commission works closely with Member States and with the other EU institutions towards this objective.

EU Member States have a key role to play, as they manage, together with the European Commission, around three quarters of the budget, under the shared management principle. This means that Member States distribute the funds to beneficiaries. They are therefore on the front line, making sure the budget is spent where it is needed, by setting up the relevant management and control systems.

The Commission conducts audits and on-the-spot checks to make sure such procedures exist and that they are carried out in the right way. If the Commission discovers deficiencies, it can intervene by interrupting or

MANAGEMENT AND PROTECTION OF THE EU BUDGET

For the 2021–2027 budget and NextGenerationEU, an additional layer of protection has been introduced: Regulation (EU, Euratom) 2020/2092 on a general regime of conditionality for the protection of the Union budget. It makes sure that the EU is better able to deal with breaches of the principles of the rule of law that affect or risk affecting the EU budget.

- suspending payments to beneficiaries or Member States. This means temporarily stopping payments from EU funds, until the problems detected have been resolved. This is a preventive action.
- The Commission can also take action after the payments have been made. If at a later stage the Commission spots that something has gone wrong, it can introduce financial corrections and recover the money already paid
- In the event of fraud, the European Anti-Fraud Office (OLAF) steps in to investigate, and if it confirms that fraud has been committed with EU money, the Commission starts working to recover the funds.
- Since 2020, the European Public Prosecutor's Office works to investigate and prosecute misuse of EU funds. Its work is an additional guarantee that the EU budget is fully protected.

Together with the other instruments already in place, it will make sure that every euro goes where it is needed and creates added value for the citizens

ALLOCATIONS PER HEADING FOR 2021 TO 2027

KEY FEATURES

The programmes funded under the multiannual financial framework are grouped into seven headings, or expenditure categories, of the EU budget. Each one is dedicated to a specific policy area.

The seven headings are:

Single Market, Innovation and Digital

Cohesion, Resilience and Values

Natural Resources and Evironment

Migration and Border Management

Neighbourhood and the World **European Public Administration** While NextGenerationEU is a separate instrument (see Section 1), its funding will be channelled through programmes that form part of the long-term budget. Several headings are therefore funded both under the multiannual financial framework and under NextGenerationEU. The overview below covers both instruments.

In addition, several programmes will benefit from additional allocations under MFFR Article 5 and from the reuse of decommitments under FR Article 15 and from potential reflows from the European Development Fund. The precise additional allocations will be established annually. The amounts given in this document are indicative approximations.

> "The EU budget is for everybody – businesses, farmers, researchers and students. Let's make the most of it!"

Johannes Hahn

European Commissioner for Budget and Administration

HEADING 1

SINGLE MARKET, INNOVATION AND DIGITAL EUR 149.51 billion

The EU wants to step up investment in areas such as research and innovation, digital transformation, strategic infrastructure and the single market, as they will be key to unlocking future growth. Programmes under this heading will help tackle shared challenges such as decarbonisation and demographic change, and boost the competitiveness of enterprises and small and medium-sized companies.

RESEARCH AND INNOVATION EUR 93.72 billion

+ 5.41 from NGEU +3.42 under MFFR Article 5

14.88

COHESION, RESILIENCE AND VALUES

EUR 426.69 billion

+ 776.50 from NGEU

+6.84 under MFFR Article 5

Spending under this heading aims at strengthening the resilience and cohesion between the EU Member States. To this end, the funding helps reduce disparities in and between EU regions, and within and across Member States, and promote sustainable territorial development. In addition, by investing in the green and digital transition, young people, health and action to protect EU values, the programmes seek to make the EU more resilient to present and future challenges. Programmes such as the Recovery and Resilience Facility and REACT-EU, financed under NextGenerationEU, support important investments and reforms in the Member States.

NATURAL RESOURCES AND ENVIRONMENT EUR 401.00 billion

+ 18.94 from NGEU

The EU budget is and will continue to be a driver of sustainability, investing in sustainable agriculture and maritime sectors, along with climate action, environmental protection, food security and rural development. Some of the programmes under this heading support the EU's farming, agricultural and fisheries sectors and seek to make them more competitive (such as the common agricultural policy and the European Maritime, Fisheries and Aquaculture Fund). Other programmes are dedicated exclusively to the EU's environmental and climate objectives (such as the programme for environment and climate action (LIFE) and the Just Transition Fund).

AGRICULTURE AND MARITIME POLICY

MIGRATION AND BORDER MANAGEMENT

EUR 25.70 billion

+1.14 under MFFR Article 5

Programmes under this heading seek to tackle the challenges linked to migration and the management of the EU's external borders. Under the 2021–2027 long-term budget, support for strengthening the EU's external borders is being increased in order to safeguard the asylum system within the EU. Member States also receive more EU funds to help them better manage migration into the EU.

MIGRATION	
EUR 11.10 billion

BORDER MANAGEMENT

EUR 14.37 billion

+1.14 under MFFR Article 5

Integrated Border Management Fund (Border management and visa instrument and Customs control equipment instrument) 6.25 +1.14 under MFFR Article 5

HEADING 5

SECURITY AND DEFENCE

EUR 14.92 billion

This heading includes programmes whose role is to improve the security and safety of Europe's citizens, to strengthen Europe's defence capacities, and to provide the tools needed to respond to internal and external security challenges to which no Member State can respond on their own. To be ready to protect its citizens, Europe also needs to enhance its strategic autonomy, and build well-designed and streamlined defence instruments.

SECURITY

EUR 4.60 billion

Internal Security Fund 1.93 Nuclear decommissioning (Lithuania) 0.55 Nuclear safety and decommissioning (including Bulgaria and Slovakia) 0.63

DEFENCE EUR 9.64 billion

European Defence Fund 7.95 Military mobility 1.69

HEADING 6

NEIGHBOURHOOD AND THE WORLD

EUR 110.60 billion

+ 1.13 (indicative) from use of reflows from the European Development Fund

Programmes under this heading reinforce the EU socio-economic impact in its neighbourhood, in developing countries and the rest of the world. The heading also includes assistance for countries preparing for accession to the EU. Thanks to this funding, the EU can keep and even strengthen its role as a global player. The EU can also remain, together with its Member States, the world's leading development and humanitarian aid donor.

EXTERNAL ACTION

EUR 95.75 billion

+1.13 (indicative) from use of reflows from European Development Fund

PRE-ACCESSION ASSISTANCE EUR 14.16 billion

HEADING 7

EUROPEAN PUBLIC ADMINISTRATION EUR 82.47 billion

The European public administration plays a crucial role in helping the EU to deliver on its priorities, and to implement policies and programmes in the common European interest. At time same time, it remains relatively small in size compared to national or even many regional and local administrations. The budget for administration has been broadly stable over the years, accounting less than 7% of the spending under the long-term budget. In parallel, EU staff have been asked to deliver on more and more tasks.

This heading covers mainly the administrative expenditure of all EU institutions, as well as pensions of the retired FU officials

European Schools and Pensions 19.48

Administrative expenditure of the institutions 62.99

All amounts EUR billion, in current prices.

THE FLEXIBILITY OF THE EU BUDGET **EXPLAINED**

The 2021–2027 budget includes flexibility mechanisms to ensure that it can address unexpected needs. These allow for additional financial support to be mobilised in case of The maximum additional amount that can be unforeseen events such as natural disasters and emergencies. These **flexibility mechanisms**, also known as special instruments, ensure that the EU

budget is fit for the needs of tomorrow as well as the needs of today.

used for special instruments in 2021–2027 will be around EUR 21 billion (in 2018 prices). It will be distributed between the following instruments.

FLEXIBILITY INSTRUMENTS

Flexibility Instrument

This instrument will be used to finance actions that cannot get funding via other sources of the budget. With an annual allocation of EUR 0.92 billion (in 2018 prices), it will help the EU respond to unforeseen challenges. In the past, it has been mobilised to address security threats and migration challenges.

Single Margin Instrument

This will allow for the efficient management of the margins under the long-term budget, i.e. the difference between the planned spending and the maximum amount that can be spent under each heading. This means that funding not used as planned can be redirected to where it is needed the most.

EMERGENGY INSTRUMENTS

European Globalisation Adjustment Fund

With a maximum annual amount of EUR 0.19 billion (in 2018 prices), this fund will help reintegrate workers who have lost their jobs due to globalisation into the labour market. It usually comes into play when entire companies are shut down or when a large number of workers are laid off in a particular sector, in one or more neighbouring regions.

Solidarity and Emergency Aid Reserve

With a maximum annual amount of EUR 1.2 billion (in 2018 prices), this reserve can be used to help tackle emergency situations resulting from major natural disasters or public health crises in Member States and accession countries. About a third of the funding will be reserved for action outside the EU, in light of the ever increasing humanitarian needs arising from conflicts, global refugee crises or worsening natural disasters due to climate change.

Brexit Adjustment Reserve

With an overall size of **EUR 5 billion** (in 2018 prices), this reserve is aimed at countering the adverse consequences of the departure of the United Kingdom from the EU in the worst-affected Member States and sectors. The objective is to help those in need handle the immediate impact of Brexit more easily.

SOURCES OF REVENUE FOR THE EU BUDGET

WHERE DOES THE REVENUE FOR THE EU BUDGET COME FROM?

There are three main sources of revenue for the EU budget – customs duties, contributions based on the value added tax (VAT) collected by Member States and direct payments from the national budgets (based on the gross national income (GNI) of each Member State). A new source of revenue, an 'own resource' based on volumes of non-recycled plastic, has been introduced as of 1 January 2021 and the EU institutions have agreed to consider introducing other new sources of revenue for the EU budget, closely linked to policy priorities.

Own resource based on customs duties

Customs duties have been an EU own resource since the 1970s. They arise from the EU's commercial and trade policies and are levied on imports of products from non-EU countries.

Member States collect the customs duties on imports to the EU and transfer part of the amount to the EU budget. In the 2021–2027 period, Member States will keep 25 % of the customs duties collected to cover collection costs. In the past, customs duties have generated about 13 % of the revenue of the EU budget.

Gross National Income (GNI)-based own resource – direct contributions from Member States' treasuries to the EU budget

Originally conceived as a compensatory mechanism, this has gradually become the main source of revenue for the EU budget, representing about 70 % of the revenue. It is calculated proportionally to Member States' GNI, which is an indicator of the size of a country's economy. Under this method, EU Member States therefore contribute to the EU budget proportionally to their economic strength.

Other sources of revenue

Revenue from competition and other fines, along with taxes on the salaries of EU officials, will continue to generate a small part of the revenue of the EU budget.

Contributions based on the value added tax (VAT) collected by Member States

The VAT-based own resource corresponds to a percentage levied on Member States' VAT bases. For the 2021–2027 period, this stands at 0.3 % of the VAT bases of all Member States. In the past, the VATbased own resource has accounted for some 12 % of the EU budget revenue.

A new national contribution based on non-recycled plastic packaging waste

This own resource is calculated based on the amount of non-recycled plastic packaging waste of each Member State as reported to Eurostat. A uniform call rate of EUR 0.80 per kilogram will be applied to the weight of the plastic packaging waste that is not recycled, with a mechanism in place to avoid excessive contributions from less wealthy Member States. It is expected to generate a revenue of some EUR 6 billion per year. This source of revenue is closely linked to the EU policy priorities. It should encourage Member States to reduce their packaging waste and stimulate the EU's transition towards a circular economy.

POSSIBLE NEW RESOURCES FOR THE EU BUDGET:

The Commission has committed to tabling three proposals for new own resources by June 2021, as follows:

Carbon border adjustment mechanism

The carbon border adjustment mechanism would ensure that products imported from outside the EU incur the same costs for their CO2 emissions as EU products that are currently subject to the EU Emissions Trading System (ETS) (see below). This should cause the imported goods to be priced as they would be if they had been produced in the EU and ensure fairness for EU companies.

Digital levy

The digital levy would apply to some digital activities and ensure that all businesses, including digital ones, pay their fair share of tax.

EU Emissions Trading System (ETS)-based own resource

This own resource would be linked to the Emissions Trading System. The Emissions Trading System is the EU carbon market, through which companies buy or receive emission allowances. Allowances permit companies to emit a certain amount of greenhouse gases below an established cap that decreases over time. The Emissions Trading System has been successful in helping the EU to reduce greenhouse gas emissions. It is an important tool for the good functioning of the EU single market, by putting an equal price on CO2 emissions everywhere in the EU.

Further own resources, to be proposed by June 2024, could include a financial transaction tax, a financial contribution linked to the corporate sector or a new common corporate tax base.

HOW WILL NEXTGENERATION FU BE FUNDED?

To finance NextGenerationEU, the European Commission will raise funds on the capital markets – up to EUR 750 billion in 2018 prices or up to EUR 806.9 billion in current prices.

The borrowed amounts will be repaid over a long-term period, until 2058. To help with the repayments, the EU will look into introducing new own resources to the EU budget.

HOW WILL THE BORROWING FOR **NEXTGENERATIONEU WORK?**

To fund NextGenerationEU, the EU will borrow funds on the capital markets.

The EU has been a long-standing participant on the capital markets. Until 2020, it was raising funds and channelling them in the form of back-to-back loans to its Member States and third countries.

In 2020, the EU started borrowing in large volumes for the first time, to finance its Instrument for Temporary Support to Mitigate Unemployment Risks in an Emergency (SURE programme). The funds raised are being paid as back-to-back loans to Member States and used to finance short-term employment schemes across the EU.

In both cases, the EU's high credit rating has helped obtain favourable financial terms.

For the NextGenerationEU borrowing, the EU will also count on its high credit rating to get favourable financial terms. To protect this rating, the EU will use the EU budget headroom as a guarantee.

The headroom is the difference between the maximum amount of revenue that the EU can raise to the EU budget and the actual spending from the EU budget. It therefore guarantees that the EU can always deliver on its commitments. no matter the circumstances.

To guarantee the borrowing under NextGenerationEU, the EU will have a headroom that is 0.6 percentage points higher above the standard one, for the period until 2058. This will help the EU guarantee the borrowing, retain its high credit rating and raise funds under more favourable market conditions than many individual Member States.

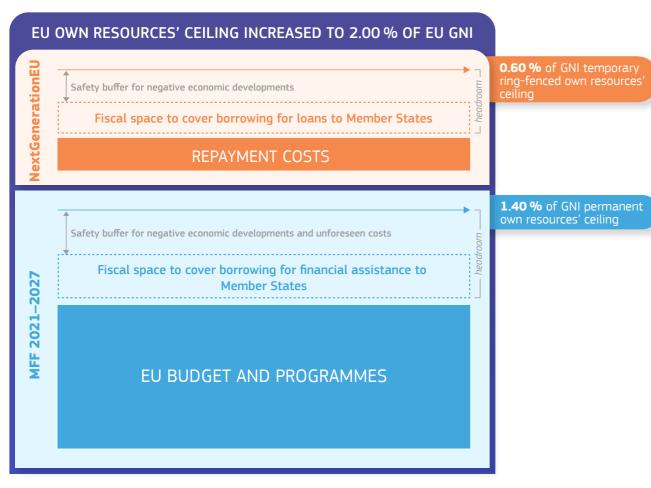

Chart: Increased ceiling for EU own resources Source: European Commission.

PROGRAMMES PER HEADING (*)

*All amounts in current prices.

HEADING 1: Single Market, Innovation and Digital

Horizon Europe

BUDGET:	EUR 86.12 billion, + EUR 3.42 billion under MFFR Article 5, + EUR 0.56 billion from reuse of decommitments under FR Article 15(3), + EUR 5.41 billion from NextGenerationEU
OBJECTIVE:	Horizon Europe is the EU framework programme for research and innovation: it promotes excellence in research and provides essential support to top researchers and innovators to drive the systemic changes needed to ensure a green, healthy and resilient EU.
WHAT DOES IT DO?	Through the programme, the Commission provides funding in the form of grants, prizes and procurement to excellent researchers to promote their activities. It also provides funding to develop research infrastructure and foster mobility within the EU. Lastly, it supports partnerships between Member States, industry and other stakeholders to work jointly on research and innovation.
TYPE OF PROJECTS:	Research and innovation projects tackling societal challenges with an emphasis on EU industrial leadership, recovery, the green and digital transitions (e.g. high-performance computing, artificial intelligence, data and robotics, batteries, smart cities, cancer and rare diseases, carbon-neutral and circular industry, blue economy, etc.).
TYPE OF ACTIONS:	Networking and coordination, research, innovation, pilot actions, market deployment actions, training and mobility actions, dissemination and exploitation of results, etc.
TYPE OF RECIPIENTS:	Scientists and academics, research organisations, universities, industry, small and medium-sized enterprises, students, etc.
DGET IMPLEMENTATION:	The programme is implemented directly by the Commission or through funding bodies that the Commission designates responsible. The programme may provide funding in the form of grants, prizes, procurements and financial instruments.
MORE INFORMATION:	https://ec.europa.eu/info/funding-tenders/find-funding/eu-funding-programmes_en https://ec.europa.eu/info/horizon-europe_en
	Euratom Research and Training Programme
BUDGET:	EUR 1.98 billion.
OBJECTIVE:	To pursue nuclear research and training activities to support continuous improvement of nuclear safety, security and radiation protection, and potentially contribute to the long-term decarbonisation of the energy system in a safe, efficient and secure way.
WHAT DOES IT DO?	The Euratom research and training programme complements Horizon Europe. It supports nuclear research and training in areas defined by the Euratom treaty, complementing actions by Member States.
TYPE OF PROJECTS:	Studies, training and other actions in the field of fusion and nuclear safety research, radioactive waste and spent fuel management, radiation protection and ionising radiation applications (e.g. nuclear medicine), nuclear capabilities and cross-cutting issues.
TYPE OF RECIPIENTS:	Scientists and academics in fusion and fission, research organisations, universities, industry, small and medium-sized enterprises, students, etc.
DGET IMPLEMENTATION:	The budget is implemented in the form of grants, prizes or procurements, both through direct management (i.e. managed directly by the Commission) and through indirect management (i.e. managed by a contracting authority.)

BU

OBJECTIVE: ITER, a first-of-its-kind experimental device under construction in Saint-Paul-Lèz-Durance, France, aims to prove the scientific and technological feasibility of nuclear fusion as a future energy source. This would be a major step towards showing that fusion is a sustainable energy source and can contribute

WHAT DOES IT DO? The programme covers the EU contribution to the ITER International Organization for the construction of the ITER facility, which includes procurement of equipment, installation and general technical and administrative support for the construction phase, as well as participation in commissioning and operations. The programme also covers other ITER-related activities, such as the 'broader approach'

Undertaking(F4E). The programme provides funding in the form of grants and procurements.

BUDGET: EUR 3.07 billion, + EUR 1.14 billion under MFFR Article 5, + EUR 6.07 billion from NextGenerationEU.

OBJECTIVE: To carry out investments in sustainable infrastructure, research and innovation and digitisation, small and medium-sized enterprises and mid-caps, social investment and skills, across the EU.

WHAT DOES IT DO? The InvestEU fund provides for an EU guarantee to support financing and investment operations, carried out by implementing partners that contribute to objectives of the EU's policies. Implementing partners and other financial intermediaries will provide finance as guarantees, loans, risk-sharing or equity. The InvestEU Advisory Hub provides advisory support for the development of investable projects and access to financing. The InvestEU Portal boosts the project's visibility to a large network of international

> investment gaps, in four policy areas – sustainable infrastructure; research, innovation and digitisation; small and medium-sized enterprises; and social investment and skills – along with higher-risk projects

and the other implementing partners. The programme may provide funding in the form of grants and

HEADING 1: Single Market, Innovation and Digital

Connecting Europe Facility

BUDGET:	EUR 20.73 billion.	
OBJECTIVE:	To accelerate investments in Europe's transport, energy and digital infrastructure networks. To support the twin green and digital transitions, by contributing to the ambitious infrastructure targets for the European Green Deal and the digital decade.	
WHAT DOES IT DO?	The programme provides financial support, primarily in the form of grants, with different co-financing rates depending on the project type, to three main sectors: transport, energy, and digital. It supports the development of high-performing, sustainable and efficiently interconnected trans-European networks in the fields of transport and energy, along with digital connectivity projects of common interest.	
TYPE OF PROJECTS:	Connecting Europe Facility studies and works are spread widely across the EU and certain neighbouring countries, with priority given to actions with the highest value for all of Europe, particularly those which complete missing cross-border links, remove bottlenecks or deploy EU-wide systems.	
TYPE OF RECIPIENTS:	Industry, small and medium-sized enterprises, research organisations, other public and private entities established in a Member State or in a third country associated with the programme or created under EU law, and international organisations.	т
BUDGET IMPLEMENTATION:	The programme will primarily be implemented through direct management via executive agencies. The Connecting Europe Facility is implemented through a mix of grants, procurements and financial instruments.

law studies.

procurements.

IMPLEMENTATION:

BUDGET: FUR 4.21 billion.

OBJECTIVE: To strengthen the governance and functioning of the single market. To implement, enforce and further develop rules in areas such as financial services, anti-money laundering, free movement of capital, consumer protection, food safety, animal and plant health, capacity-building joint actions between Member States and high-quality European statistics.

WHAT DOES IT DO? The single market programme brings together programmes from different policy areas and provides a flexible financing framework. It creates synergies and efficient budgetary spending. Activities are united by shared objectives of regulating, facilitating and protecting various activities and actors within the internal market in order to preserve an internal market that continues to function without interruption, empowering and protecting stakeholders. A well-functioning single market, as the driver of the EU's competitiveness, should be the basis of the effective economic recovery of all ecosystems after the

TYPE OF PROJECTS: Studies, projects and actions contributing to maintaining a high level of food safety, higher protection for consumers and improved competitiveness of businesses, in particular small and medium-sized enterprises; improvement of the governance of the single market and compliance with rules; production of high-guality statistics and dissemination; development of European standards.

YPE OF RECIPIENTS: Individuals and businesses, consumer organisations, statistical institutes, standardisation organisations, authorities in the area of food and feed, animal health and welfare and plant health, the Enterprise

> The programme is managed through both direct and indirect management. It provides funding in the form of grants, prizes and procurements.

EU anti-fraud programme

OBJECTIVE: To provide the necessary coordination of anti-fraud activities and financial, technical and information support to Member States in their efforts to protect the EU's financial interests.

WHAT DOES IT DO? The programme supports Member States in purchasing specific anti-fraud equipment and organising specific training sessions, targeted conferences and studies. It also maintains the Irregularity Management System to facilitate the compliance of Member States with the obligation to report any irregularities detected. Finally, it maintains a platform for the exchange of mutual administrative assistance information and supports activities such as joint customs operations, providing training courses and meetings for operational actions.

TYPE OF PROJECTS: Purchase of specialised and technically advanced equipment and effective IT tools for improving transnational and multidisciplinary cooperation, aimed at detecting and investigating irregularities, fraud and corruption detrimental to the EU's financial interests; actions supporting development of technical knowledge, such as staff exchanges, including the establishment of investigation teams and joint cross-border operations; specialised training, risk analysis workshops, seminars and comparative

YPE OF RECIPIENTS: EU public authorities involved in anti-fraud activities.

MPLEMENTATION: The programme is implemented under direct management. It provides funding in the form of grants and

European Regional Development Fund EUR 226.05 billion. BUDGET: **OBJECTIVE:** To strengthen economic, social and territorial cohesion in the European Union by reducing economic, social and territorial disparities between its regions and supporting the full integration of less-developed regions within the EU's internal market. WHAT DOES IT DO? The European Regional Development Fund supports investment in, in particular, innovation and research, the digital transition, small and medium-sized enterprises, the environment and the net-zerocarbon economy. It also addresses economic, environmental and social problems in urban areas, with a special focus on sustainable urban development. In addition, it supports cooperation activities between regions in different Member States (under European territorial cooperation goal (Interreg)). **TYPE OF PROJECTS:** Productive investments in enterprises, infrastructure and public policies across a range of topics; consultancy services and advice; studies. TYPE OF RECIPIENTS: Regional public and private entities, with special attention paid to disadvantaged regions and areas, notably rural areas and areas suffering from natural or demographic handicaps and outermost regions; and, indirectly, EU citizens, public or private organisations and businesses. **BUDGET IMPLEMENTATION:** The fund is delivered through shared management. The co-legislators establish the legal framework BUDG and the overall funding, and determine the allocations by Member State and category of region. The Commission adopts the operational programmes and cooperates with Member States' administrations on the implementation. Funding is disbursed in the form of grants, procurements and financial instruments. **MORE INFORMATION:** https://ec.europa.eu/info/funding-tenders/find-funding/eu-funding-programmes_en https://ec.europa.eu/regional_policy/en/2021_2027/ **Cohesion Fund** BUDGET: EUR 48.03 billion. including EUR 11.29 transferred to the Connecting Europe Faclity. **OBJECTIVE:** To strengthen the economic, social and territorial cohesion of the EU and its sustainable development by providing support to Member States with a gross national income per inhabitant below 90 % of the EU average. WHAT DOES IT DO? The Cohesion Fund mainly focuses on capital-intensive environmental and transport investments. EU resources are predominantly used to support investments through grants. TYPE OF PROJECTS: The Cohesion Fund finances investment projects in the environment and in the Trans-European Transport Networks (TEN-T), such as the railway axis Berlin-Verona. **TYPE OF RECIPIENTS:** Public and regional authorities in the following Member States: Bulgaria, Czechia, Estonia, Greece, Croatia, Cyprus, Latvia, Lithuania, Hungary, Malta, Poland, Portugal, Romania, Slovenia and Slovakia; and, indirectly, EU citizens, public organisations and businesses. **BUDGET IMPLEMENTATION:** The Cohesion Fund is delivered through shared management. The co-legislators establish the legal BUDG framework and the level of funding and determine the allocations by Member State and category of region. The Commission adopts the operational programmes and cooperates with Member States' administrations on the implementation. Funding is disbursed in the form of grants, procurements and financial instruments. Recovery and Resilience Facility

BUDGET:	EUR 723.82 billion from NextGenerationEU (EUR 337.97 billion in grants and EUR 385.85 billion in loans).
OBJECTIVE:	To mitigate the economic and social impact of the coronavirus pandemic and make EU economies and societies more sustainable, resilient and better prepared for the challenges and opportunities of the green and digital transitions.
WHAT DOES IT DO?	It supports public investments and reforms, as set out in the EU Member States' national recovery and resilience plans, aiming to ensure a sustainable and inclusive recovery that promotes the green and digital transitions. The investments and reforms financed by the Recovery and Resilience Facility will create jobs and ensure that the EU recovers from the crisis together, ready for the future.
TYPE OF PROJECTS:	Reforms and public investment projects that address the challenges identified in the European semester. It will back measures to build a green, digital and inclusive future. The measures supported will result in, among other benefits, faster internet, cleaner energy and transport, restoring our nature, renovating buildings, modern and digital public administrations, education and training and new technologies for the benefit of all Europeans.
TYPE OF RECIPIENTS:	EU Member States; and, indirectly, EU citizens, public or private organisations and businesses.
JDGET IMPLEMENTATION:	The Recovery and Resilience Facility is implemented by the Commission through direct management. Funding is disbursed in the form of non-repayable financial support and loans.

Citizens, equality, rights and values programme BUDGET: EUR 0.65 billion. + EUR 0.91 billion under MFFR Article 5. **OBJECTIVE:** To protect and promote rights and values as enshrined in the EU treaties and in the EU Charter of Fundamental Rights in order to sustain and further develop rights-based, democratic, equal and inclusive societies based on the rule of law. WHAT DOES IT DO? The programme supports civil society organisations active at local, regional, national and transnational levels in promoting EU values and rights. It raises awareness of equality and non-discrimination, the rights of the child, data protection, EU citizenship rights and our shared European history. It contributes to advancing gender and non-discrimination mainstreaming, and preventing and combating genderbased violence against women as well as all forms of violence against children and other groups at risk. It supports citizens' participation in democratic EU life. TYPE OF PROJECTS: Training, capacity building and exchange of good practices, town twinning, raising peoples' awareness about their rights and the benefits that EU policies will bring to their daily lives, and supporting the development of knowledge-based EU policies and legislation through surveys, studies and analyses. TYPE OF RECIPIENTS: Civil society organisations, European networks, public authorities, including equality and human rights bodies, local authorities, academia / research institutes and think tanks. **BUDGET IMPLEMENTATION:** The programme is managed directly by the Commission and the European Education and Culture TYPE OF RECIPIENTS: Executive Agency (formerly the Education, Audiovisual and Culture Executive Agency). Funds are disbursed in the form of grants, prizes and procurements. BUDGET IMPLEMENTATION: MORE INFORMATION: https://ec.europa.eu/info/funding-tenders/find-funding/eu-funding-programmes_en https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/programmes/cerv Justice programme MORE INFORMATION: **BUDGET:** EUR 0.30 billion. **OBJECTIVE:** To support further development of an EU area of justice based on the rule of law and mutual recognition and trust. To facilitate access to justice and promote judicial training and judicial cooperation in civil and criminal matters, and the effectiveness of national justice systems. WHAT DOES IT DO? The programme funds activities that ensure the full and consistent application and enforcement of EU law and promote the smooth functioning of the EU area of justice. This includes improving mutual trust and ensuring efficient judicial cooperation in civil and criminal matters, improving the knowledge of the judiciary and judicial staff of EU law, and promoting cross-border cooperation. It also funds activities to facilitate effective and non-discriminatory access to justice for all. **TYPE OF PROJECTS:** Actions supporting training of justice professionals, stakeholder dialogue and expert meetings and preparation and dissemination of technical guidelines; capacity building of key EU judicial networks (such as the European Judicial Training Network); development and use of digital tools in complementarity with the digital Europe programme and the maintenance and extension of the e-Justice portal. TYPE OF RECIPIENTS: Public authorities, justice professionals and their representative bodies and training bodies, academia / research institutes and civil society organisations, etc. **BUDGET IMPLEMENTATION:** The programme is managed directly by the Commission. Funding is disbursed in the form of grants, prizes and procurements. BUDGET: EUR 1.84 billion, + EUR 0.69 billion under MFFR Article 5.

Creative Europe

networks, etc.

programme's implementation.

OBJECTIVE: To optimise the potential of Europe's cultural and creative sectors by offering opportunities for operators to develop technologically and artistically through innovative trans-border initiatives. To exchange, co-produce and distribute European works and make them accessible to a wide and diverse audience.

WHAT DOES IT DO? Creative Europe provides support to the cultural and creative sectors. Its MEDIA subprogramme is designed to support European film and other audiovisual industries. It provides funding for the development, promotion and distribution of European works within Europe and beyond. It also contributes to boosting European talents via training programmes, along with contributing to film education, heritage and audience development. The 'culture' subprogramme is designed to support cultural sector initiatives and promote cross-border cooperation, platforms, networking and literary translation. The cross-sectoral strand is designed to exploit the potential of collaboration among different cultural and creative sectors (including news media) and to address the common challenges they face.

TYPE OF PROJECTS: Actions promoting excellence in the field of culture; projects aiming at developing innovative audiovisual content; support to the news media sector, fostering pluralism, cross-border collaboration and promotion of media literacy. In order to increase the visibility of Europe's cultural and audiovisual sectors, the European Commission rewards achievement, highlights excellence and raises awareness of Europe's culture and heritage through different awards.

Media, artists, cultural and creative organisations within the EU and beyond, films and music industry and

The programme is managed directly by the Commission and the European Education and Culture Executive Agency (formerly the Education, Audiovisual and Culture Executive Agency). Funds are disbursed in the form of grants, prizes and procurements. The Creative Europe desks contribute to the

HEADING 3: Natural Resources and Environment

European Agricultural Guarantee Fund BUDGET: EUR 291.09 billion (before transfers between the common agricultural policy pillars). **OBJECTIVE:** To support viable farm income and resilience across the EU to enhance food security through the common agricultural policy. To contribute to meeting EU environment and climate objectives via greening (until 2022) and via eco-schemes and conditionality as of 2023. Achieving a higher environmental ambition, addressing climate change and the protection of natural resources and biodiversity are priorities in the future common agricultural policy that will enter into force in 2023. WHAT DOES IT DO? The European Agricultural Guarantee Fund (EAGF) supports EU farmers through different payment schemes. It also funds measures to support and stabilise agricultural markets, including public intervention buying, private storage aid, sector-specific exceptional support measures, the EU school fruit, vegetables and milk scheme, information and promotion actions, etc. **TYPE OF PROJECTS:** The EAGF supports EU farmers through different payment schemes, including a basic payment scheme, a payment for sustainable farming methods (under 'green direct payments', 30 % of direct payments are targeted at practices beneficial for the environment and climate) and a payment for young farmers. All payments are subject to compliance with EU rules on food safety, environmental protection and animal welfare. They are crucial for keeping farmers in business, as farming incomes are significantly below the average income in the EU. EU farmers and rural stakeholders. TYPE OF RECIPIENTS: **BUDGET IMPLEMENTATION:** The EAGF is primarily implemented under shared management with the Member States. MORE INFORMATION: https://ec.europa.eu/info/funding-tenders/find-funding/eu-funding-programmes_en https://ec.europa.eu/info/food-farming-fisheries/key-policies/common-agricultural-policy_en https://ec.europa.eu/info/food-farming-fisheries/sustainability/modernising-agriculture en https://ec.europa.eu/info/food-farming-fisheries/key-policies/common-agricultural-policy/financing-cap_en **European Agricultural Fund for Rural Development** BUDGET: EUR 87.44 billion (before transfers between the common agricultural policy pillars), + EUR 8.07 billion from NextGenerationEU. **OBJECTIVE:** To support the transition towards a fully sustainable agricultural sector and the development of vibrant rural areas. WHAT DOES IT DO? The European Agricultural Fund for Rural Development (EAFRD) finances the common agricultural policy's contribution to the EU's rural development objectives: improving the competitiveness of agriculture, encouraging sustainable management of natural resources and climate action and achieving balanced socioeconomic development of rural areas and communities. TYPE OF PROJECTS: The EAFRD provides assistance to farmers and inhabitants of rural areas to increase sustainability and competitiveness, including through the following: boosting the use of digital and technological tools; actions improving the attractiveness of rural areas both for living and for job creation; support for innovation and diversification of on-farm activities; village revitalisation; protection of the environment and biodiversity; and actions aiming at restoring, preserving and enhancing ecosystems related to agriculture and forestry with a positive impact on biodiversity, soil, water and air. **TYPE OF RECIPIENTS:** EU farmers and rural stakeholders. BUDGET IMPLEMENTATION: The EAFRD is primarily implemented under shared management with the Member States. MORE INFORMATION: https://ec.europa.eu/info/funding-tenders/find-funding/eu-funding-programmes_en https://ec.europa.eu/info/food-farming-fisheries/key-policies/common-agricultural-policy/rural-development_en https://ec.europa.eu/info/food-farming-fisheries/sustainability_en

European Maritime, Fisheries and Aquaculture Fund BUDGET: EUR 6.11 billion. **OBJECTIVE:** To facilitate the sustainable use and management of marine resources, the development of a resilient blue economy, and international cooperation towards healthy, safe and sustainably managed oceans. WHAT DOES IT DO? The fund supports actions and investments that contribute to the protection of marine biodiversity and to sustainable and low-impact fishing and aquaculture activities. It also promotes the supply of high-quality and healthy seafood products to European consumers, supports the development of a sustainable blue economy in coastal communities and contributes to maritime surveillance and international cooperation on ocean governance. TYPE OF PROJECTS: Actions supporting improvement of fishing gear, facilities and practices; innovation and sustainability of the blue economy sector; improvement of aquaculture facilities and greening of the sector; and quality and sustainability of marine food sources. TYPE OF RECIPIENTS: Stakeholders involved in the exploitation and management of marine resources, in particular fishers, aquaculture farmers, coastal communities, civil society organisations, marine scientists and public authorities. BUDGET IMPLEMENTATION: 87 % of the budget is implemented under shared management. 13 % is implemented under direct management. Funding is disbursed in the form of grants and procurements. https://ec.europa.eu/info/funding-tenders/find-funding/eu-funding-programmes_en MORE INFORMATION: https://ec.europa.eu/oceans-and-fisheries/funding/emfaf_en Programme for environment and climate action (LIFE) BUDGET: FUR 5.43 billion. **OBJECTIVE:** To achieve the shift towards a sustainable, circular, energy-efficient, renewable-energy-based, climateneutral and resilient economy. To protect, restore and improve the quality of the environment, including the air, water and soil. To halt and reverse biodiversity loss and to tackle the degradation of ecosystems. WHAT DOES IT DO? The LIFE programme's financial allocation is implemented via four subprogrammes: nature and biodiversity, circular economy and quality of life, climate change mitigation and adaptation, and clean energy transition. TYPE OF PROJECTS: Actions aiming at nature conservation, development of circular economy, clean energy transition and fighting against climate change; support to innovative technologies, development of best practices; coordination and capacity building; support to the implementation of environmental and climate plans developed at regional, multiregional or national levels. TYPE OF RECIPIENTS: EU national or local authorities, private commercial organisations and private non-commercial organisations (e.g. non-governmental organisations). BUDGET IMPLEMENTATION: The budget of the LIFE programme is implemented through direct management. Funding is disbursed in the form of grants, procurements and prizes. **MORE INFORMATION:** https://ec.europa.eu/info/funding-tenders/find-funding/eu-funding-programmes_en

HEADING 3: Natural Resources and Environment

Just Transition Fund

BUDGET:	EUR 8.45 billion + EUR 10.87 billion from NextGenerationEU.
OBJECTIVE:	To support the transition towards climate neutrality by alleviating the socioeconomic impacts of the transition in the regions most affected.
WHAT DOES IT DO?	The Commission provides grants that are disbursed to the Member States in line with their territorial just transition plans. These plans identify the eligible territories, i.e. those expected to be the most negatively impacted by the green transition.
TYPE OF PROJECTS:	Actions aiming at economic diversification and reconversion of the territories concerned: backing productive investments in small and medium-sized enterprises, creation of new firms, research and innovation, environmental rehabilitation, clean energy projects, up- and reskilling of workers, job-search assistance and active inclusion of jobseekers' programmes, as well as the transformation of existing carbon-intensive installations in cases where this transformation leads to substantial emission cuts and job protection.
TYPE OF RECIPIENTS:	National and local authorities; businesses and start-ups in the regions where the magnitude and impact of the climate transition are greatest.
BUDGET IMPLEMENTATION:	The budget is implemented through shared management. Funding is disbursed in the form of grants, procurements and financial instruments.
MORE INFORMATION:	https://ec.europa.eu/info/funding-tenders/find-funding/eu-funding-programmes_en https://ec.europa.eu/info/strategy/priorities-2019-2024/european-green-deal/actions-being- taken-eu/just-transition-mechanism/just-transition-funding-sources_en https://ec.europa.eu/regional_policy/en/2021_2027/

R

HEADING 4: Migration and Border Management

	Asylum, Migration and Integration Fund
BUDGET:	EUR 9.88 billion.
OBJECTIVE:	To contribute to the efficient management of migration and to the implementation, strengthening and development of the common policy on asylum and the common immigration policy, in line with the relevant provisions of the EU acquis and fully respecting the international obligations of the EU and the Member States arising from international agreements to which they are parties.
WHAT DOES IT DO?	The fund strengthens and develops all aspects of the Common European Asylum System (including its external dimension) along with legal migration to Member States, promotes the integration and social inclusion of third-country nationals and initial reintegration into third countries, enhances return and readmission along with solidarity and fair sharing of responsibility between Member States and counters illegal immigration.
TYPE OF PROJECTS:	A wide range of initiatives, such as the improvement of accommodation and reception services for asylum seekers, information measures and campaigns in third countries on legal migration channels, education and language training for third-country nationals, specialised support for vulnerable persons, unaccompanied children and victims of trafficking, information exchange and cooperation between EU Member States and training.
TYPE OF RECIPIENTS:	State and federal authorities, local public bodies, non-governmental organisations, humanitarian organisations, private and public law companies and education and research organisations.
UDGET IMPLEMENTATION:	The fund is managed under direct, indirect and shared management. The resources are allocated to the national programmes under shared management and to a thematic facility to be used for specific actions. Funding is disbursed in the form of grants and procurements.

HEADING 5: Security and defence

Internal Security Fund

BUDGET:	EUR 1.93 billion.
OBJECTIVE:	To contribute to ensure a high level of security in the EU, in particular by preventing and combating terrorism and radicalisation, serious and organised crime and cybercrime, and by assisting and protecting victims of crime as well as by preparing for, protecting against and effectively managing security-related incidents, risks and crises.
WHAT DOES IT DO?	The fund improves/facilitates exchange of information (between Member States' authorities, relevant EU bodies, third countries and international organisations); improves/intensifies cross-border cooperation, including joint operations in relation to terrorism and serious and organised crime with a cross-border dimension; and strengthens Member States' capabilities to prevent/combat crime, terrorism and radicalisation as well as manage security-related incidents, risks and crises.
TYPE OF PROJECTS:	A wide range of initiatives, such as setting up and running IT systems, joint operations and investigation teams, acquisition of operational equipment, promoting and developing training schemes and ensuring administrative and operational coordination and cooperation and exchange of best practices.
TYPE OF RECIPIENTS:	State/federal police, customs and other specialised law enforcement services (including national cybercrime units, antiterrorism and other specialised units), local public bodies, non-governmental organisations, international organisations, EU agencies, private and public law companies, networks, research institutes and universities.
UDGET IMPLEMENTATION:	The fund is managed under direct, indirect and shared management. The resources are allocated to the national programmes under shared management and to a thematic facility to be used for specific actions. Funding is disbursed in the form of grants and procurements.

HEADING 6: Neighbourhood and the world

	Common foreign and security policy		Pre-accession assista
BUDGET:	EUR 2.68 billion.	BUDGET:	EUR 14.16 billion.
OBJECTIVE:	To help the EU assume its role as a global player as envisaged under Article 21 of the Treaty on European Union 'to preserve peace, prevent conflicts and strengthen international security', thereby contributing to a 'stronger Europe in the world'.	OBJECTIVE:	Pre-accession assistance suppo Bosnia and Herzegovina, Kosovo their societies, legal systems and future of the EU, making Europe
WHAT DOES IT DO?	Different types of civilian common security and defence policy missions, depending on the mandate from the Council of the European Union, EU special representatives, stabilisation actions and multilateral and bilateral non-proliferation and disarmament projects. These are implemented through agreements with international organisations, notably within the United Nations.	WHAT DOES IT DO?	of our closest neighbours. It also sustainable economic growth an
TYPE OF PROJECTS:	Technical assistance projects, capacity building, training and transfer of skills; actions contributing to strengthening of the capacities of states to improve the safety and security of ammunition stockpiles, thus contributing to the global reduction of the risk of accidental explosions and illicit diversion, ensuring safer communities and more stable states and societies; provision of experts, election observers, police officers and rule-of-law experts.	WHAT DUES IT DU!	It facilitates political, institution development and brings the so- areas of support are (1) the ru alignment with EU legislation, g agenda and sustainable connect border cooperation.
TYPE OF RECIPIENTS:	International organisations, including the Ammunition Management Advisory Team, the European Union	TYPE OF PROJECTS:	Actions in the field of technical infrastructure, etc.
	Advisory Mission in support of sector reform in Iraq – one of the 11 ongoing civilian missions under the EU's common security and defence policy – and EU election observation missions such as the one deployed in Ghana in December 2020.	TYPE OF RECIPIENTS:	Civil society and media organisat artists, farmers and students in
UDGET IMPLEMENTATION:	The budget is implemented through indirect management for civilian common security and defence policy, through direct management for election observation missions and through both indirect and direct management for non-proliferation and disarmament actions. Funding is disbursed in the form of grants and procurements.	BUDGET IMPLEMENTATION:	Pre-accession assistance is ma management), as well as the na international organisations and implemented through grants, pr financial instruments, and guarar

	Overseas countries and territories (including Greenland)		(*) This designation is without prejudice t Kosovo declaration of independence.
BUDGET:	EUR 0.50 billion.		
OBJECTIVE:	To promote the economic and social development of the EU's 13 overseas countries and territories (OCTs), to increase their resilience and competitiveness, and reduce their economic and environmental vulnerability.		
WHAT DOES IT DO?	The bulk of the funding will support actions in areas of mutual interest to OCTs and the EU – green, digital, sustainable growth and human development. EU funds will also support OCTs in building their capacities and promoting their cooperation with their regional partners.		
TYPE OF PROJECTS:	The types of actions supported are determined in a programming exercise in consultation with the OCTs: for instance, in Greenland, EU budget support helps implement education-sector reforms, leading to increased education levels and resulting in better prospects for pupils and students. The Caribbean and Pacific regional programmes help address sustainable energy, marine biodiversity, resilience and climate change challenges.		
TYPE OF RECIPIENTS:	Various stakeholders in the EU's 13 OCTs.		
UDGET IMPLEMENTATION:	A primary financing modality is budget support through direct management by the partner OCTs.		
MORE INFORMATION:	https://ec.europa.eu/info/funding-tenders/find-funding/eu-funding-programmes_en		

orts the EU candidate countries and potential candidates (Albania, o (*), Montenegro, North Macedonia, Serbia and Turkey) in transforming id economies on the path to EU membership. (*) Figures as of November 2020. Current prices are calculated by applying annually a fixed deflator of 2% to the amounts in 2018 prices. Due to rounding, some totals may not correspond with the sum of the separate figures.

Allocations for 2021 do not take into account the Amending Letter and the outcome of the 2021 Draft Budget negotiations. As the annual distribution of amounts under MFFR Article 5 cannot be established in advance, an equal annual split in 2018 prices is applied for illustrative purposes.

Multiannual financial framework 2021-2027 and NextGenerationEU (in commitments) - in million EUR, 2018 prices (*)

(*) Figures as of November 2020. Current prices are calculated by applying annually a fixed deflator of 2% to the amounts in 2018 prices. Due to rounding, some totals may not correspond with the sum of the separate figures. Allocations for 2021 do not take into account the Amending Letter and the outcome of the 2021 Draft Budget negotiations. As the annual distribution of amounts under MFFR Article 5 cannot be established in advance, an equal annual split in 2018 prices is applied for illustrative purposes.

(*) The current maximum financial allocation is indicative based on the Commission's Autumn 2020 Economic Forecast for real gross domestic product growth in 2020 and 2021. The 30 % allocations will be revised by June 2022, based on actual out-turn data from Eurostat.

The amount available for grants is EUR 312.5 billion in 2018 prices, which corresponds to EUR 337.96 billion in current prices. The difference is due to the standard conversion from 2018 to current prices, calculated by applying a fixed 2 % deflator to the annual amount of commitments.

The Recovery and Resilience Facility will make EUR 360 billion available in loans, on top of the EUR 312.5 billion it makes available in grants. Member States can request a loan worth up to 6.8 % of their 2019 gross national income as part of the submission of their recovery and resilience plan.

[1] Includes direct payments, the support for outermost regions (POSEI) and small Aegean islands, and the schemes related to wine, olive oil, hops, and apiculture.

[2] In the framework of the negotiations on the Transitional Regulation (Regulation (EU) 2020/2220), the European Parliament and the Council issued a joint statement underlining that the EU funding arrangements for POSEI and the smaller Aegean islands included in the Transitional Regulation for 2021 and 2022 are exceptional, reflecting the particularity of the circumstances, and do not constitute a precedent for future CAP financing, neither for the outermost regions and the smaller Aegean islands, nor for direct payments. The funding for the POSEI and smaller Aegean islands for the subsequent years therefore needs to be addressed as part of the negotiations on the CAP reform.

[3] As regards direct payments of calendar year 2020 (financial year 2021), the net ceilings of Annex III to Regulation (EU) No 1307/2013 still apply. The respect of the EAGF sub-ceiling for financial year 2021 will therefore be ensured through the application of financial discipline.

Getting in touch with the EU

In person

All over the European Union there are hundreds of Europe Direct information centres. You can find the address of the centre nearest you at: https://europa.eu/european-union/contact_en

On the phone or by email

Europe Direct is a service that answers your questions about the European Union. You can contact this service: - by freephone: 00 800 6 7 8 9 10 11 (certain operators may charge for these calls),

- at the following standard number: +32 22999696 or
- by email via: https://europa.eu/european-union/contact_en

Finding information about the EU

Online

Information about the European Union in all the official languages of the EU is available on the Europa website at: https://europa.eu/european-union/index_en

EU publications

You can download or order free and priced EU publications at: https://publications.europa.eu/en/publications. Multiple copies of free publications may be obtained by contacting Europe Direct or your local information centre (see https://europa.eu/european-union/contact_en).

EU law and related documents

For access to legal information from the EU, including all EU law since 1952 in all the official language versions, go to EUR-Lex at: http://eur-lex.europa.eu

Open data from the EU

The EU Open Data Portal (http://data.europa.eu/euodp/en) provides access to datasets from the EU. Data can be downloaded and reused for free, for both commercial and non-commercial purposes.
